FOR PURPOSE OF
REGISTERING ALIENS

225,000 Soon To Come Under
Provisions of Registration
Law

MAKE SEVEN DISTRICTS

Bucks County in Same Group
As Phila., Delaware, Chester,
and Montgomery

By Raymond Wilcoxe
I. N. S. Staff Correspondent

HAHRISBURG, Oct. 19.—(INS)—The State was today divided into seven districts for the purpose of registering an estimated 225,000 aliens who will soon come under the provisions of Pennsylvania's alien registration law.

Secretary of Labor and Industry Lewis G. Hines revealed that in order to cope with the tremendous task, for which there is no precedent, a corps of roving registrars has been organized.

The registrars, numbering approximately 250, will be stationed at the headquarters of the seven registration districts and from there will be sent on flying trips to communities with large foreign populations.

Bucks County has been placed in the same group as Phila., Delaware, Chester and Montgomery counties with headquarters in Philadelphia.

As there will only be seven permanent offices in the state during the registration period of December, the registrars will circulate from one community to another, staying in each place only long enough to complete their work and then moving on to another location.

In this way, said Hines, the Department's Bureau of Alien Registration expects to cover the entire state with what must necessarily be a limited staff due to the Legislature's failure to set aside a special fund for the work. The money will be diverted from the Department's regular appropriation, said Hines, who denied reports there was no money with which to carry on the work.

Although the validity of the alien law, passed by the 1939 Legislature, is now under fire in U. S. District Court at Scranton, the Department was concerned only with the administrative tasks of registering the state's unassimilated foreign-born population, said Hines.

In from 20 to 25 counties it was expected that registrars would have to remain on duty for only a few days and would therefore be available for much of the time in counties with large foreign populations.

The State will advise aliens in the communities in which there is no office as to days registrars will be present for registration purposes. This information will be broadcast over the radio, advertised in newspapers and spread about by various other means. Announcements will be posted in factories, said Hines.

Hines said he expected from 200,000 to 220,000 of the state's estimated 300,000 aliens to register, pay their one dollar fee, and receive an alien registration card. The remainder, he thought, would probably be exempt from the law's provisions, including those who have applied for their first citizenship papers, parents of war veterans, and those residing in the country since 1908.

Hines said that due to the stiff penalty for not registering, \$100 fine and 60 days in prison, he anticipates no difficulty in enforcing the law.

Recommend Medal For
Philadelphia Girl Scout

The Girl Scout Council of Philadelphia has recommended to the National Girl Scouts that 13-year-old Jayne Timlin, 1456 N. Hobart street, Philadelphia, be awarded a silver cross for bravery in saving a life.

Jayne, herself a scout, rescued Mary Nichols, 19, from Neshaminy Creek, Bucks county, last July. Jayne swam out to the girl, who was struggling in 10 feet of water 24 yards from shore, and brought her safely to the bank.

She is the daughter of Mr. and Mrs. Harry Timlin and holds a second-class swimming rank in her troop, Philadelphia No. 284. Last month the Council recommended a similar award for Theresa Hyland, of Upper Darby, for saving a small boy from drowning.

Berlin, Oct. 18.—Nazi Germany abandoned the Scandinavian states to Russian domination.

While military heads claimed a further French retreat in the western front, authoritative political circles announced that Norway, Sweden, Denmark and Finland are no concern of Germany. The Scandinavian and Baltic states, it was said, had their opportunity to line-up with Germany in the past, but turned it down.

The meeting of Scandinavian kings and foreign ministers in Stockholm was ignored in Germany, and the Reich professed no interest in Finland's situation.

Bristol Staff Installs
Hulmeville Lodge Officers

HULMEVILLE, Oct. 18.—Deputy Mrs. John Wichser, and members of her staff from Lily Rebekah Lodge of Bristol, installed officers of Wild Rose Lodge of Rebekahs, No. 254, in the lodge headquarters here on Monday evening.

The officers installed to their respective positions are: Noble grand, Mrs. William King; vice grand, Mrs. Marion Sumerfield; r. s., Mrs. Harold Dassenburg; l. s., Mrs. Arthur Martin; warden, Mrs. William Schneider; conductor, Mrs. C. Wesley Haefner; v. g. r. s., Mrs. Harry Oliver; v. g. l. s., Mrs. Viola Lakerman; chaplain, Mrs. Fred Juliff; outside guard, Horace C. Cox; inside guard, Mrs. Chillion LeCompte; secretary, Mrs. Horace C. Cox; financial secretary, Mrs. N. Schlatter; treasurer, Mrs. Uwellan Miller; musician, Miss Marie Hanson. Refreshments were served to local members, and their guests from the Bristol order; and Lady Mystic Lodge of Holmesburg.

A Halloween party is arranged for Monday, November 6th, for members and their families.

NEW HOPE SCHOOLS
ARE INDEFINITELY CLOSED

Authorities Take Action To
Prevent Epidemic of
Paralysis

NO MENINGITIS CASES

NEW HOPE, Oct. 18.—Health and school authorities in this borough, as well as in Lambertville, Solebury and several other nearby communities, are doing all in their power to prevent an infantile paralysis epidemic.

During the past few weeks several cases of the disease have developed, one in New Hope and two others in Lambertville. A four-month-old Lambertville child died in a hospital in Trenton, and Margaret Slack, aged 8, Lambertville, is in a critical condition in the Municipal Hospital, Trenton. Dr. D. K. Leiby, who was in charge of the latter case, suspected the child was suffering from the disease, and he directed that she receive hospital treatment. Soon after her arrival at the hospital her case was diagnosed as infantile paralysis. The muscles controlling speech and swallowing are very seriously affected.

Raymond LaBaw, aged 8, of this borough, is ill with the same disease in the Abington Hospital. Placed in a respirator last week, the child is reported to be doing as well as can be expected.

Rumors that there had been an outbreak of spinal meningitis in this community have been denied.

In order to prevent an epidemic, authorities have ordered the closing of a number of schools. The Solebury consolidated school, which is attended by elementary grade pupils from this borough, will be closed until at least Thursday. If there are no new cases by that time, it is likely sessions will be resumed. The Buckingham Friends' School has been closed, and the schools in this borough and Lambertville have been closed indefinitely.

Upon the advice of health authorities and physicians, all churches, motion picture houses and playgrounds in Lambertville have been closed.

Although not closed, the Solebury School for Boys and the Holmquist School for Girls in Solebury have been placed under quarantine. Students of these schools have been asked by the authorities not to go into New Hope, Lambertville and Stockton until it is assured there will be no more cases of infantile paralysis.

Hay Fire Extinguished
In A Barn at Yardley

YARDLEY, Oct. 18.—Yardley Fire Company was called to extinguish a blaze in the barn owned by John C. Coulton, Sr., Monday evening.

The flames were discovered by Dr. Eugene Kelly.

The blaze was confined to the straw in the barn, which showed indications of being ignited by some boys playing with matches, a short time previous. No damage was done.

BABY FOR LITTLES

A daughter was born to Mr. and Mrs. Robert Little, Parkland, in Abington Memorial Hospital, on Thursday. The new arrival has been named Kathleen Joan.

Exercise, At Least

(By "The Stroller")
Can it be that Bristol's girls might take up football in earnest? Four of them are practicing at least, and with a make-shift football.

The "grid" was a local church property; the "eleven" proved to be a quartet; and the "pigskin" was formed by the felt hat of one of the number, stuffed with some scarfs.

Petrillo Gets Death Sentence

Philadelphia, Oct. 18.—Herman Petrillo, erstwhile Langhorne spaghetti and olive oil salesman, whose arrest touched off Philadelphia's murder-for-insurance ring investigation more than a year ago, today was sentenced to die in the electric chair.

First of 13 members of the ring to have confessed, or to have been convicted in taking part in the amazing murder conspiracy, Petrillo heard his doom pronounced by Judge Harry S. McDevitt. Eleven more suspects are now in jail awaiting trial.

The swarthy "master mind" of the syndicate assertedly responsible for the slaying of 100 insurance salesmen, was convicted March 22, 1939, of poisoning of Ferdinand Alfonsi, a Philadelphia WPA worker.

Governor Arthur H. James now will set the date for execution of Petrillo, who after his arrest and conviction volunteered to aid detectives in uncovering the baffling ramifications of the arsenic combine.

Alfonsi, whose widow Stella is scheduled to go on trial next Monday for her husband's death, died in a Philadelphia hospital, in October, 1930, from arsenic poisoning.

Scandinavian Nations Confer

Stockholm, Oct. 18.—Kings of the Scandinavian nations and the president of Finland meet in Stockholm today to consider joint defense arrangements and definite European peace moves.

The government got under way with a keynote of "all for one" in the welcoming address by Frederik Stroy, chairman of the Stockholm City Council.

King Gustaf, Crown Prince Gustaf Adolph and members of the government met King Christian of Denmark and King Haakon of Norway, when they arrived by train, and President Kallio of Finland, who flew from Helsinki.

Foreign Minister, who accompanied the heads of their states, immediately got down to work, and they will hold another session tomorrow.

The reassurances by President Mikhal Kallio of the U. S. S. R. given to President Roosevelt yesterday, regarding Finland, were contrasted today in the statement of the Helsinki Sanomat that some of Russia's demands on Finland violates that republic's integrity and neutrality. The paper is owned by Elias Erkkio, Finnish Foreign Minister.

Here and There in Bucks County Towns

One of the outstanding criminologists in this country, Col. H. Norman Schwartzkopf, former head of the New Jersey State Police, will address the Doylestown Forum, Friday evening, taking the negative side of the topic for the evening, "Should photoplays depicting crime be barred from public exhibition?"

Equally outstanding in his knowledge of the subject is Father Joseph A. Kenny, of the Eastern Penitentiary of Pennsylvania, at Philadelphia. Father Kenny will defend the affirmative.

Col. Schwartzkopf is known to millions of radio listeners through his broadcasts of "The Gang Busters" program. He became nationally known in connection with the Lindbergh kidnapping case. His acquaintance with the methods and quirks of the criminal element of society gives real value to his opinion on the subject.

Father Kenny recently took the place of chaplain at the Eastern penitentiary held for many years by Father Farley, who retired because of illness. Father Kenny's contacts with convicts has given him information which together with the opinions of the prisoners themselves forms an invaluable background for any discussion for the possible reasons for crime.

The Forum will be open as at other meetings to all who desire to question the speakers. Because of the popular interest in the moving picture and its value for both amusement and instruction, it is expected that more questions than usual will be asked two such outstanding authorities.

EMILIE SCHOOL HOUSE TO
BE SOLD AT PUBLIC SALE

One-Room Building To Be
Offered For Sale On
Saturday, Nov. 4th

IS NO LONGER IN USE

The one-room building which for over 80 years housed public school children at Emilie, is to be sold.

The date of the sale of the little stone building is Saturday, November 4th, the hour being two p. m.

Inasmuch as the structure has not been used as a school during the 1938-39 term and thus far this term, the board of directors at a recent session decided to dispose of it.

The students from that area have been transported to the Edgely school.

The building is said to have been built approximately 85 years ago. Included in the sale is the one acre of land on which the building is erected.

The school is located on the Emilie-Fallsington Road, at Emilie.

Residents of Emilie state that information handed down through the years is to the effect that ground for a public school and a church was donated from what was then the Brown farm, now the Wistar Institute Farm.

THE GREAT GAME OF POLITICS

By FRANK R. KENT
"Distributed by McNaught Syndicate, Inc."

Two 'Over Sixty' Schemes

Washington, Oct. 17.

ONE set of individuals whose political activities the war in Europe has not slowed down is composed of those engaged in promoting schemes for the benefit of what they like to call our "senior citizens." These activities make it seem better for thoughtful people not to, as the Administration appears to want, submerge all domestic issues and concentrate solely on foreign affairs.

IT is neither necessary nor smart to do that. For example, in two great States—Ohio and California—there are to be voted on next month constitutional amendments which if carried will tremendously stimulate, for a short while any-

way, the movement to pension with public funds all men and women over 60 years old not "gainfully employed." Should these amendments be adopted, no one can doubt that an impetus to the campaign to make these old-age pensions national instead of local will have been given. In other words, the Townsend Plan, which always has had behind it an immense pressure group of voters and a potential vote in Congress never fully developed, in the next session will be so strong that it may be impossible to stop it.

SHOULD both, or either, the Ohio or the California schemes be ratified, the effect upon the "senior citizens" would be electrical. In every State they constitute a large block of votes by themselves. Add to their number the votes they can influence and control and obviously they can be a factor so formidable in every State that no candidate with real competition could safely ignore them. Of course, it

Ship's Passengers Injured

New York, Oct. 18.—With many of her 596 passengers seriously injured in a battering Atlantic storm, the U. S. liner "President Harding" plowed through heavy seas today toward New York.

Hurrying to meet her appeal for morphine, codein, splints and fracture supplies, were two Coast Guard cutters.

The President Harding was 600 miles east of Halifax when she reported the drastic situation aboard. At the same time, the 3509-ton British steamer Blairbeg, made rudderless and helpless by the same storm, was reported sinking 400 miles east of Halifax.

Ford Discharges Soviets

Detroit, Oct. 18.—Forty Soviet Russian engineers and 11 "local Communists" were discharged from Henry Ford's River Rouge plant today on charges of attempting to bribe minor Ford officials to gain access to blueprints of new engineering developments.

The Russian engineers were given offices on the second floor of the important building at the Rouge plant. Ford blueprints were made available to them for their studies. Harry Bennett, personnel director, said the first detachment of the Russian engineers came to the Rouge plant in 1930, and that six months before the 1937 riot, the number of engineers was augmented to 49.

FAIR PLAY ON ALL FRONTS

The ideals of genuine sportsmen, if extended to embrace the relationship between combatant nations, would bring about eternal peace on earth, good-will to all men, says the head of a sporting-goods firm in an interview.

He has come to the conclusion that there is nothing sporting about war. The only rule of battle is that victory to one means death to another, and where the matter of life and death is concerned, no sense of fair play can enter. Sportsmanship knows that war is the resort of the bad loser, and if for no other reason should be shunned. On the athletic field, the twin elements of self-control and teamwork are essential for success. War begins when statesmanship breaks down. War is an admission of defeat by the leaders of nations.

Sports, particularly international sports, are a safety valve for national pretensions to supremacy. They mean not only restored leadership but also an exhumation of the principle of fair play, something too often unknown to statesmanship.

OPTIMISTIC ECONOMISTS

The United States is embarking upon a substantial business recovery period and may float along on waves of comparative prosperity for some time, according to a poll of 50 of the nation's leading economists. Given almost equal credit with the European war for the upturn are healthy domestic business conditions, but more than half of the students of business why and wherefore believe that peace might bring a temporary recession in American economic fortunes.

Many of the answers noted a more conciliatory feeling between business management, labor and government. In recognizing that feeling, we are struck by the coincidence that a conciliatory attitude is in evidence during a business upswing.

When business is good, organized labor has less fertile lands for cultivating seeds of discontent. Organized labor enjoys good business and is less inclined in such times, because of better working conditions, to wrangle with employers. Business management prospers, can make greater concessions to employees.

War is another of the great pump-primers, though it so often happens that later you'll need a new pump.

AT THE CAPITOL

(By International News Service)

HARRISBURG, Oct. 18.—Preliminary to the "big push" against Sunday movies and sports in Pennsylvania, which will take place next year, at least 18 communities will ballot on November 7 on Sunday movies and sports. -- 16 will ballot on whether to permit Sunday movies and two on the question of Sunday sports.

Dr. William B. Forney, president of the Lord's Day Alliance, which is leading the fight to prevent the showing of movies and the playing of sports on Sunday, predicts that "the big fight will come in 1940" -- under the 1935 local option law, votes on movies and sports may be held once every five years and the 1940 election will represent the first opportunity for another vote since the 1935 balloting.

"Our organization is planning to have the issue on the ballot in many districts which we lost five years ago," said Forney, "and we are confident Sunday movies and sports will be rejected in many of these sections."

Although the Pennsylvania Turnpike, the \$61,000,000 super-highway now being constructed between Harrisburg and Pittsburgh, will not be completed until June 1940, traffic will be permitted for a limited time over 19 miles of the unpaved road in Somerset county. -- By special arrangement with the contracting firm, the "dream" highway has been opened to

motorists visiting the Autumn festival in Somerset county. -- The section which may be traversed by automobile extends from a point just north of Somerset borough where the super-highway crosses Route 219 westward to the Laurel Hill tunnel, a 10-mile distance.

Invalidation of the State's Fair Sales Act of 1937 by the State Superior Court represents a vindication of the arguments presented during the last session of the Legislature by Senator Harry Shapiro, Philadelphia Democrat.

During the debate on a 1939 fair trades measure, which was subsequently passed and vetoed by Governor James. Shapiro told the Senate he would vote against the measure because he thought it to be unconstitutional. -- The measure nevertheless received the approval of all Senators present with the exception of Shapiro and two Republicans.

Moving day is in the offing for State Departments which will occupy the new \$5,000,000 finance building, begun under the Earle Administration and now practically completed. -- The first to move in is the Auditor-General's Department, to be followed by the Banking Department.

The Great Game of Politics

Continued from Page One

It is true that if the Ohio or California amendment should prevail, in the end it would mean bankruptcy for the State's ruin of its industry, increase in its unemployment and suffering among its people. But this would not have been made plain in a year. Congress begins in January and probably will adjourn in early June. In that period, should either Ohio or California take this plunge into the pension pool, little more could be done than set up the machinery for the distribution of the funds.

THE inevitable calamity would still be in the future and the enthusiasm of the Townsends, the Downeyites and the Bigelowites would be at high tide. If they win in either of these States this time, it will be the first real victory they have achieved and there will be immense jubilation in their organized forces in every State. The national movement would be strengthened and the drive to put it over in the coming session might be successful. It would seem, therefore, that the situation in both Ohio and California is of considerable national concern. In the latter, the proposition is the old "Thirty Dollars Every Thursday" scheme, generally referred to as the "Ham and Eggs" idea. A month ago, there was genuine apprehension that this silly proposal might receive the endorsement of a majority of the voters. Within the last two weeks, however, the State has become aroused and the best information now is that it will be decisively voted down.

IN Ohio, the conviction is strong that the amendment cannot carry, but that the vote for it will be large, and there are many who "view with alarm." The plan is sponsored by the Rev. Herbert S. Bigelow, incumbent preacher and politician, who served in Congress as spokesman for the Townsend forces. His scheme provides for payment of \$50-a-month pensions

to single persons over 60 and \$80 a month to married couples. If this amendment is adopted, it will be beyond the power of the Legislature to change and Ohio will be in an awful fix. While it is true forty-seven organizations have joined together to smash the plan, its direct over-60-year-old "beneficiaries" are estimated at 690,000. If each of these is worth only two votes, the total would be approximately 1,400,000. To these should be added others under 60 who have dependents over 60.

ALTOGETHER, these amendments create a dangerous situation. Even if, as is expected, both are beaten, the probable vote is likely to be of a size that will scare the politicians all over the country and bring support to the Townsend Plan in the next session. In a press conference on October 19, President Roosevelt declared against the Bigelow plan to the extent of classifying it as one of the "bag of pension tricks" he has opposed in the past. It would be helpful if he could be induced to make a stronger and more unequivocal statement.

IT is interesting that Dr. Townsend is reported against the Bigelow plan on the ground that it cannot be financed and its failure would tend to discredit the Townsend Plan. There is no question about that being true, but observers believe that a huge vote for these amendments in November can—and would—be capitalized by the Townsend forces in the next session, which will be followed closely by an election. It is in such sessions that members of Congress are most apt to vote for popular proposals, no matter how unsound. An overwhelming vote against the amendments in both Ohio and California would tend not only to keep the Townsend Plan from becoming formidable next session but would curb the tendency already discernible in both parties to vie with each other in 1940 in holding out bait to our "senior citizens."

Betty Barclay's Hallowe'en Helps

You all know what Hallowe'en represents. You all know how novel dishes are needed to make the party a success. So here are some recipes — my contribution to this year's festivities. Incidentally, the recipes are good, long after Hallowe'en is over.

Sweet Dreams Punch

4 cups freshly made, chilled
decaffeinated coffee
1½ pints ice cream
Grated nutmeg

Pour the decaffeinated coffee over a pint of ice cream in a punch bowl or big mixing bowl, and blend lightly with an egg beater until the ice cream is partly melted. Sprinkle with grated nutmeg. Vanilla, coffee, or chocolate ice cream combines well with the coffee flavor.

To make decaffeinated coffee by the percolator method, use 1 heaping tablespoon decaffeinated coffee, regular grind, for each cup (½ pint) of cold water. Pour cold water into pot. Set percolator basket in pot and put coffee in it. Cover. Let percolate slowly and gently 15 to 20 minutes. (For a 4-cup percolator use ¾ cup coffee.)

Lima and Ham Loaf

1 cup cooked, dried Limas
¼ cup ground ham
¼ cup chili sauce or catsup
2 eggs, beaten
1 teaspoon minced onion
1 tablespoon melted butter
1 cup cracker crumbs
½ teaspoon salt
½ teaspoon pepper

Rub Limas through a coarse strainer. Add ham, chili sauce, eggs, pepper, salt, minced onion, butter and cracker crumbs. Shape into a loaf, place in a buttered pan in a moderate oven (350° F.) and bake for 30 minutes, basting occas-

tionally with the melted butter. Serve with brown gravy.

Orange Frosted Doughnuts

(For 24 doughnuts)

Allow 1 good sized doughnut for each guest. Frost with orange-tinted icing made by creaming together well:

3 tablespoons butter
2 cups powdered sugar
2 tablespoons lemon juice
2 tablespoons orange juice
1 teaspoon grated orange rind
Orange vegetable coloring, as needed

Magic Butternut Pie

1½ cups (1 can) sweetened condensed milk
2 eggs, separated
1 cup butternut meats, or other nut meats
2 tablespoons granulated sugar

(Unbaked pie shell (8-inch). Thoroughly blend sweetened condensed milk, beaten egg yolks and finely chopped butternut meats. Pour into unbaked pie shell. Bake in moderately slow oven (325° F.) 25 minutes or until set. Cover with meringue made by beating egg whites until stiff and adding sugar. Return to oven and bake 10 minutes or until meringue is brown.

Recipes for Parlor Fun

The newest recipe for parlor fun is Contack, an exciting new game played with 36 triangular pieces — each side with a different color and number. The object of the game is to match colors and numbers and to make scoring totals — a streamlined development of domino technique that's easy to learn. Another sure way to end the social ice-breaking problem is Quick Wit, a hilarious quiz game that's played with cards and guarantees new and different questions every night.

Johnny wasn't any brighter than the light he studied by!

Johnny was a problem child. His homework was atrocious, yet his classroom studies were above average. It just didn't make sense.

So the teacher called on his parents and soon discovered the trouble. A nearby wall bracket, equipped with a 25-watt bulb, supplied all the light for his desk. Realizing the importance of light, she immediately suggested an I. E. S. study lamp, recommended especially for children's eyes. Now

Johnny is one of teacher's star pupils.

Remember, eyes are precious—light is cheap. Why impair good vision with poor lighting? I. E. S. lamps give ideal illumination... softly diffused light, free from glare and shadows.

FIRST GRID GAME HERE UNDER LIGHTS SCHEDULED FOR TONIGHT

ST. ANN'S XI TO MEET DIAMOND TEAM ON HIGH SCHOOL FIELD

Field To Be Brilliantly Illuminated For the Initial Contest

EXPECT LARGE CROWD

Both Teams Are Conference Members and This Will Be League Tilt

Tonight on the Bristol High School field, Bristol fans will be able to witness the first football game to be played under the lights in this section. The opposing teams are St. Ann's A. A. and the Diamond team from Andalusia. The kick-off is scheduled for eight o'clock and in the event of rain, the game will be played tomorrow night.

Six large and power light beams are being applied to the teams by a New York light firm and these beams are expected to turn the darkness of the high school field into daylight and make the playing the same as if it was during the day. The teams will use a white football in the game.

Both St. Ann's and Diamond are members of the Bucks County Conference and this is a league tilt. A defeat for St. Ann's will most likely drop them from the top of the league. This is Diamond's first game in league competition.

To date, Diamond is sporting a winning streak of 17 straight games and have not tasted defeat since St. Ann's beat them in 1937. Last year the clubs battled to a scoreless tie. Diamond was tied twice last season and once this far this year.

In weight the clubs are mostly even, averaging about 155 pounds. St. Ann's players have the edge over the Diamond representatives in experience but have not won as many tilts as the Big Green. In fact, thus far this season, the Purple and Gold have yet to taste the fruits of victory and have lost their three games played.

However, in justice to the St. Ann's players, it must be stated that the opposition faced by the Andalusians has not been the type as played by St. Ann's. The three teams met by St. Ann's all were well drilled eleven and coached by men of college experience. And in all three tilts, St. Ann's were outwitted by their opponents.

Coach "Bill" Dougherty, of the Saints, is predicting a triumph for his boys tonight. Dougherty states that this is the first time that St. Ann's is facing an opponent of its same weight and judging by the kind of ball his proteges have played against bigger teams should romp home with a victory.

On the other hand, Coach Diamanti, of Diamond, feels differently towards the contest. "My boys are getting better every game, despite the fact that several of them were without semi-pro experience when the season opened. We have now hit our stride as was evidenced by our victory over West Philadelphia and we are sure we'll take over St. Ann's tonight," said Coach Diamanti this morning.

The starting line-ups will be:
Diamond
Jungmanns L. E. Calone
Sweck L. T. Gullatto
J. Belinski L. G. L. Chalella
P. Marbello C. Tunis
F. Belinski R. G. J. Chalella
Svadis R. T. Vansant
E. Roberts R. E. Louder
Lange Q. B. Orazi
Scarborough L. H. B. Mancini
Girard R. H. B. Hutchinson
Eling F. B. Evans

Both teams have several of their stars sitting on the bench because of injuries. St. Ann's will miss the playing of Tommy Proffy, stellar guard, and the kicking of Freddie Barbetta, fullback. Diamond will be without the services of Eddie McFarland and Elert.

For reserves, Diamanti has Bounds, Cunningham, Carter, Robinson, Rodgers, Knight, Nealey, Fletcher, Stunpo, and H. Stunpo. St. Ann's has as substitutes: Pico, Tershon, Caro, Moore, Ross, Scott, Frascella, Castore, DeLuca, McCahan, Pizzullo, Nepi, Marozzi, and Hinneman.

FORM CAGE LEAGUE AT MEETING HELD HERE

The Bristol Basketball League was formed for the 1939-40 season last night at a meeting of the managers held in the St. Ann's Athletic Association club-house.

Three members of last season's circuit: St. Ann's, Hibernians, and Goodwill Hose Company withdrew from the league. One new club was accepted, Diamond from Andalusia. The applications of the Langhorne Red Raiders and the Italian-American Club from Morrisville, were rejected because both of these clubs are members of the Morrisville Community League.

It was decided to seek applications for the other two openings and if there are no applicants before the next meeting, the league will commence with six clubs. A rules and regulations committee was appointed and this committee will also report at the next meeting.

Teams and their representatives were: Grundy's, George Hermann and Joe Snyder; Falls Alumni, Michael DeRisi; Manhattan Soap Company, Charles Dugan and James Dugan; Rohm and Haas, James Eagan; Celtics, Vito Della and Buddy McElroy. Applications for entry into the league will be accepted by President Thomas Juno or Secretary Roy Fry.

In The Pocket

By
TENPIN
TATTLER

Hello, folks! You're going to see a lot of this column this winter, all about the tenpin topplers in Bristol and what they're doing. After five weeks of pin spilling on the local alleys it seems as if the following teams are leading the parade: in the American League, Barton's; in the National League, Auto Boys; in the Federal League, Madison; and in the Industrial League, Coffey's.

To date there have been few spectacular individual scores. "Felix" Tomlinson, captain of the J. A. C. quintet, blasted out a 601 series on opening night. A fine 252 game helped considerably to compile this total. Jack Fraser, scribe of the Industrial League, also cracked over the 600 line, with a scorching 251 single.

Savander and Fraser in the Industrial, Jake Praul in the Federal, States in the National, and Hirsch in the American are holding the top spot in the averages at this writing.

We wonder what is the matter with "Smiling Bob" Robinson this year. He hasn't been hitting as in the days of yore. Don't worry, Bobby, they'll start falling after awhile. Bailey also seems to have a hard time getting started.

Some of the boys are of the opinion that Joe Barton isn't going to bowl with his "big" team this half. What do you say, Joe? His minor league team seems to be clicking though.

their generosity in outfitting their teams so magnificently. The boys sure look great in their black and white outfits. We understand that they are doing the same thing for the girls in the Ladies League. Again, orchids to you.

Enough of this gossip, so we'll say so-long until next week when your Tattler will be back again with news and more news about the tenpin game.

SOTTUNG'S BOWLERS KEEP LEAGUE LEAD

The Sottung's took all four games from Grundy's. By winning these four games the Sottung's remained in first place in the Ladies' League. Sarah O'Boyle lead the Sottung team with an average of 428. Hamilton bowled 393 for Grundy's.

Stand-Ins took all four games from Doris Grille. McCahan lead with a score of 426 for Stand-Ins. Hildendorf was high for Doris Grille with a score of 312.

STELLAR WRESTLING CARD TO BE PRESENTED

TRENTON, Oct. 18.—An all around stellar wrestling card will be presented by Promoter Johnny Ipp at the Arena tonight. The feature two fall out of three, one hour time limit set to bring together Rudy Dusek, leader of the Nebraska grappling clan, and Gino "Red" Vagnone, carrot-topped California Italian, who is rated the smartest prospect in the wrestling game.

Neither man is a stranger to Central Jersey fandom. Rudy is a veteran campaigner, and the originator of much of the preent slam-bang wrestling tactics. He is a masterful mat "villain" and does not stop at anything to achieve victory.

Vagnone is rapidly climbing the ladder of mat success and recently held both Ernie Dusek and Joe Cox to

draws. He knows how to handle the roughnecks of the sport and might spring a surprise when he faces Dusek tonight.

Abe Yourist and Bobby Managoff, two of the brightest youngsters in the game, will vie in the semi-windup in what should be one of the most interesting scraps ever contested at the Arena.

Maurice LaChappelle, the quick and clever French-Hungarian, will tangle with Paddy Mack, rambunctious Lansdale, Pa., Irishman, and Nanjo Singh, the sinister Hindu, will face Raoul Lopez, rowdy Mexican, in the other one fall, 30 minute time limit matches. The first bout will start at 8.30 p. m.
